

CHALMERS

Göteborg 14 October 2024

To whom it may concern:

Md Tamzid Hasan, born 16 June 1988 is a student at the Electric Power Engineering-programme at Chalmers University of Technology. This is a Master's programme where the students receive a Master of Engineering Science degree. All MSc-programmes at Chalmers are 2-years full time program, taught in English and open to applicants from around the world. For these reasons, students from Chalmers University of Technology are very well skilled when it comes to English language proficiency.

Md Tamzid Hasan has completed 10 courses and 75 credits at the programme:

Power system analysis 7.5 cr
Electric drives 7.5 cr
Managerial economics 7.5 cr
Power electronic converters 7.5 cr
Industrial management 7.5 cr
Power electronic devices and applications 7.5 cr
High voltage engineering 7.5 cr
Power engineering, design project 7.5 cr
Sustainable power production and transportation 7.5 cr
Advanced power system analysis 7.5 cr

Sincerely,

Lena Sommarström
Student Guidance Counsellor
